A bright little boy in a sailor suit saluted the occupants of a passing motor car so quaintly that they stopped to give him a sixpence.

"You're very polite little fellow," the lady motorist said. "Do you salute all the strangers who pass in the same way?"

"No, no, ma'am, only motorists," the boy stammered, fingering his sixpence nervously. "Father says I'm to be polite to them because motor cars bring him trade."

The lady seemed disappointed.

"What's your father's trade, my little man? Does he repair motor cars?"

"No, ma'am; he's an undertaker," was the little fellow's response.—Tit-Bits.
